## Short description

This structured course allowed participants to improve their ICT skills in a practical and concrete way together with other teachers and education staff throughout all Europe thus gaining as well a broader understanding of education in Europe and exchanging best practices and experiences. The general aim of this training course was to foster excellence in education by empowering teachers, trainers, headmasters and other education staff to integrate ICT tools into teaching and education. The course had a flexible approach in order to adapt the learning outcomes to the particular needs and ICT skills of the participants.

## Learning Outcomes

- ✓ Got an overview of the most important and latest new technologies, including AI-powered tools, for education;
- ✓ Gained fresh perspectives on Artificial Intelligence as a teaching and learning tool;
- ✓ Learned how to create engaging and interactive multimedia content and presentations;
- ✓ Got to know the best apps, web platforms and AI solution for teachers and education staff;
- ✓ Learned how to digitally assess students' knowledge and understanding in real-time;
- ✓ Learned how to use ICT and AI tools to make education more engaging, motivating and innovative;
- ✓ Got a new perspective on digital tools and learn new ways and best practices to integrate ICT into teaching and training;
- ✓ Exchanged best practices and shared experiences with participants and staff coming throughout Europe;
- ✓ Made contacts with individuals and organizations working in the education field in Europe through everyday cooperation and networking activities.
